Mr. Alan Chong

Marina Member

Member Since: 1993

Occupation: Chairman of a listed company

Mr. Chong has been a Marina Member of the Club for more than 16 years. He is proud of being a member of the Club with its unique location and glamorous surroundings. Over these years, Mr. Chong has been recommending the Club to many of his friends who are yacht lovers to become members of the Club.

During the years, Mr. Chong has made various suggestions to the Club. Recently, the Club has accepted his suggestion to provide water and electricity to the transient dockage, which was not provided before. With this additional service, it provides more flexibility for the transient dockage and will attract more yacht owners who are not members of the Club, to use the services. Berthing fees, electricity charges and the provisions of petrol will no doubt enhance revenue to the Club.

Nowadays, yachts in large sizes are common and he considers this is a good opportunity for the Club to explore the overall development of its services and to maximize the use of the Club's area.

In recent years, a number of well-established and outstanding country clubs and marina clubs have been set up in the Southern China. Being a Member of the National Committee of The Chinese People's Political Consultative Conference (全國政協委員), Mr. Chong will be able to establish connections with those clubs and improve the competitiveness of the Club significantly.

If Mr. Chong is elected as the Council Member of the Club, he will do his utmost to work together with fellow Council Members, management of the Club and the end users.
